Reference No. 2980

Mr. Brad Bradley
Remedial Project Manager
U. S. Environmental Protection Agency
230 South Dearborn Street
Chicago, Illinois 60604

Dear Mr. Bradley:

Re: Second Work Plan Supplement
Manville Remediation Area
Waukegan, Illinois

Enclosed for your review and approval is the final version of the Second Work Plan Supplement for the Manville Waukegan Superfund Site. This version has been amended to reflect your comments and requests, as well as revisions agreed to by you and me during telephone conversations in the last two weeks.

In addition, we have reluctantly acceded to the request in your July 2, 1990 comment letter that Manville fill in the "wetlands" area on the eastern border of the Site. We had thought that, since the area supports an active population of aquatic vegetation and provides some habitat for bitterns and herons, it should be preserved as we originally suggested. EPA has opposed this. Therefore, as we have informed you on several occasions, Manville will simply carry out the work as directed by EPA and the Work Plan has been amended accordingly.

Yours truly,

CONESTOGA-ROVERS & ASSOCIATES
